

IOWA
ASSOCIATION OF MUNICIPAL
UTILITIES

Dear Stormwater Professional:

In response to the many inquiries we have received about another stormwater expo, the Iowa Association of Municipal Utilities (IAMU), in cooperation with Johnson County Soil & Water Conservation District, is organizing the **2006 Stormwater Expo**.

- **Date:** Tuesday, October 3, 2006
- **Location:** Johnson County Fairgrounds – “Building C”
Iowa City, Iowa
 - **Platforms:** Vendor Booths, Demonstrations, Presentations.
 - **Goal:** To provide latest technology and management strategies related to stormwater management, erosion & sediment control and post construction stormwater management.
 - **Audience:** Municipal officials, consulting engineers, urban conservationists, NRCS, IDNR, IDOT, engineers, landscape architects, developers, contractors, etc.

We invite you to register as a vendor for this educational event. **Approximately 75-100 participants are expected** and a comprehensive mailing list of attendees will be provided.

Each participating vendor will be furnished with one skirted 8' display table in a spacious exhibit building. Electricity to the table will be available (**please provide your own extension cord**). Vendors may set up displays at 7:30 a.m., events will begin at 9:00 a.m. and conclude at 4:00 p.m.

Please consider sponsoring this event. Prominently placed logos on signs will promote your company and enable events such as this to continue in the state. The 2006 Stormwater Expo offers a great chance to show off your products while socializing and interacting with the professionals who need you most. We are also looking for door prize donations – if you can provide something, please give us a call.

We need a variety of demonstrations and/or presentations for various stormwater management practices. Please indicate on the attached registration form ([or give us a call and ask for Pat or Kathleen](#)) as soon as you know if you are able to provide a demonstration or give a presentation. We need to know by August 18th in order to finalize the program.

Thank you.
