**Iowa Association
of Municipal Utilities**

*Help support Safe City –
an important new training
facility planned for IAMU!*

SAFE CITY is a giant step forward in IAMU's mission to provide world class safety training for its member cities and utilities.

Safe City is envisioned to be a cluster of small buildings on IAMU's 11-acre Safety & Training Field. The buildings will house various infrastructure which will provide realistic hands-on training in a variety of "real world" situations, including emergency response and distribution system construction.

Safe City will be utilized by utility operators in:

- 4 Electric
- 4 Gas
- 4 Water

and may also be used for applications in:

- 4 Telecommunication
- 4 Energy Efficiency

Safe City will be a significant addition to IAMU's highly regarded Safety & Training Field in Ankeny, Iowa.

Plans for Safe City also include an above ground confined space training vault; and open bays that will house pipes and lines to simulate underground installation, repairs, cable pulling and fire control demonstrations.

Your support can help make Safe City a reality!

IAMU hopes to receive support for Safe City from both utility members and associate member businesses.

There are also means for individuals to make tax deductible contributions to the project.

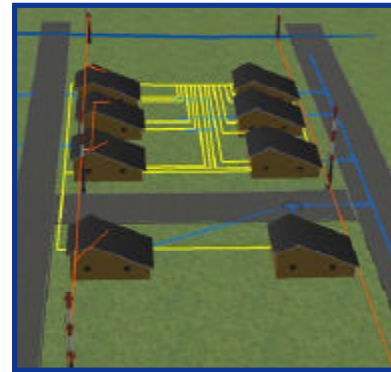

To contribute to Safe City, and to learn about levels of support and recognition; or for more information, including sample drawings, contact:
