

TABLE OF CONTENTS

	Page
Section I. Executive Summary	1
Section II. Introduction, Wetland History, Design, and Treatment	4
Figure 1 – Surface Flow Constructed Wetlands	5
Figure 2 – Subsurface Flow Constructed Wetlands	6
Section III. Wetland Use Internationally, Within the United States and Iowa Neighboring States	15
Section IV. Iowa Inventory of Constructed Wetlands for Wastewater Treatment	21
Figure 3 – Location of Constructed Wetlands for Wastewater in Iowa	21
Figures 4 – 9	34
Fig. 4 – Pretreatment Prior to Iowa Wetlands	
Fig. 5 – Years that Iowa Wetlands were Constructed	
Fig. 6 - Iowa Wetlands Flow Systems	
Fig. 7 - Iowa Surface Flow Wetland Vegetation Design	
Fig. 8 – Number of Iowa Wetland Cells at Each Site	
Fig. 9 – Design Flows (mgd) for Iowa Wetlands	
Table 1 – Inventory of Iowa NPDES Permitted Constructed Wetlands (2000-01)	28-29
Table 2 – Vegetation, Maintenance Operating Cost for Iowa Wetlands	32-33
Section V. Wetland Construction Costs, Alternative Comparisons, Selection Criteria, and Energy and Operational Cost	35
Table 4 – Constructed Costs for Surface Flow and Subsurface Flow Wetland	35
Table 5 – Constructed Costs for Treatment Systems Including Surface and Subsurface Flow and Subsurface Flow Wetland Systems	36
Table 6 – Estimated Surface Flow Wetland Costs (Kadlec and Knight, 1995)	36
Table 7 – Estimated Subsurface Flow Wetland Costs (Kadlec and Knight, 1995)	36
Table 8 – Comparison of Treatment Systems that Include Wetlands Costs to Alternative Treatment Systems	37
Table 9 – Comparison of Energy Requirements for Conventional Wastewater Treatment Systems with Design Capacities of 0.05mgd, 0.1 mgd, and 0.5 mgd (Middlebrooks et al., 1982)	39
Section VI. Iowa Constructed Wetland Systems Treatment Efficiency	41
Figure 10 – Average Monthly TSS in Iowa Wetland System Effluent	42
Figure 11 – Percent TSS Removal in Iowa Constructed Surface Flow Wetland Systems	43
Figures 12 – Average monthly CBOD in Iowa Wetland System Effluent	44

TABLE OF CONTENTS

	Pages
Figure 13 – Percent CBOD Removal in Iowa Constructed Surface Flow Wetland Systems	45
Figure 14 – Average Monthly NH ₃ in Iowa Wetland System Effluents	46
Figures 15 – 19	48
Fig. 15 – Average Monthly NH ₃ in Norway Effluent	
Fig. 16 – Average Monthly NH ₃ in Dows Effluent	
Fig. 17 – Average Monthly NH ₃ in Granger Effluent	
Fig. 18 – Average Monthly NHE in Chelsea Effluent	
Fig. 19 – Average Monthly NH ₃ in Laurel Effluent	
Fig. 20 – Average Monthly NHE in Lake Park Effluent	
Section VII. Wetland Feasibility, Barriers, and Future Actions	49
Section VIII. Resources for Constructed Wetland Information	55
Table 10 – Seed Sources and Ecological Services for Wetland Plants in Iowa	57
Table 11 – Seed Sources and Ecological Services for Wetland Plants in Iowa Neighboring States	59
Appendix A. Iowa Chapter 69.11. Constructed Wetlands for Individual Systems
